INFORMATION CONCERNING THE POINT SYSTEM FOR RENEWAL

1. ASNT Level III Refresher Courses, accredited CEU courses, college courses, corporate training department courses and courses of similar quality leading to examinations do qualify for renewal points, provided they contribute to knowledge and growth at or above the qualification level (Level II or III) in the methods in which the applicant is certified, or are NDT-related (e.g. math, physical science, QC, etc.), or cover advanced NDT material.
2. Time spent taking examinations of any kind do **NOT** qualify for renewal points.
3. Acting as a Session Chairman at a Society meeting, or as a Section Officer, National Officer, Council, or Committee Chairman does **NOT** qualify for points; these are not technical functions. The only exception is for participation in technical society meetings whose primary function was to accomplish a significant technical (not administrative) project. Such projects must meet the requirements for Activity H in Table 1.
4. Test procedures, QC manuals, etc. prepared for employers do not qualify for points; they are considered as part of an applicant's occupational or work experience.
5. To earn points for attendance at technical sessions, documentation of attendance at the actual technical presentations must be submitted. Proving general attendance at the conference is not sufficient. At all ASNT Conferences, forms for documenting attendance are provided at each technical session; have them signed by the session chairperson and submit copies of them with the application for recertification.
6. Reports prepared for employers do not qualify for points unless and until they are given as a technical presentation or published per Activities C or F in Table 1.
7. Passing mathematics or physical science courses in connection with a college degree program qualifies for points, but it is the applicant's responsibility to document the contact hours in order to receive the point credit.
8. Certificates of completion for courses must show either contact hours or **CEUs**. It is up to the applicant to supply suitable documentation showing such hours or **CEUs**. One CEU equals 10 contact hours and is equivalent to 2.5 ASNT Certification Services, LLC recertification points.
9. Providing the name of a person who can verify points is not satisfactory documentation. It is the applicant's responsibility to provide hard copy, i.e., documentation with the attesting person's signature.
10. To count for points, papers must be published in a technical society journal or official society publication. Publications which are not generally available to the public, such as company or governmental meetings or reports, are not acceptable. Similarly, talks given at meetings not open to the public do not earn points.
11. In general, the type of point documentation is the same as that needed to satisfy a strict QA/QC auditor. The ASNT Certification Services, LLC Certification Program records are audited annually and must show strict compliance with the above rules and procedures, so full compliance is required of **all** applicants, including proper documentation. In case of doubt about the suitability of documentation or whether points should be awarded, the final decision rests with the Certification Management Committee.
